# LET YOUR GEEK SHINE

## ARDUINO MAIN BOARD

DISCOVER THE WORLD OF EMBEDDED ELECTRONICS WITH THE  
**ARDUINO MAIN BOARD ★**  
 DESIGNED TO HELP YOU } UNLEASH YOUR  
 INNER INVENTOR

This is the true “brains” of your project. The Arduino Main board is essentially a tiny computer that (with a dose of programming) can interpret inputs, control outputs, and make your project come to life. It features a host of pins and is backed by the awesome power of the Arduino network – a wealth of information, resources, and inspiring projects just waiting to be explored.
